

## CARSON GIRL WEDS.

Wedded in Winnemucca Saturday Evening to Mr. James Maydon.

Miss Effie M. Latta of this city, daughter of Mr. and Mrs. Chauncey Latta of this city, was married Saturday evening in Winnemucca to James Maydon. The ceremony took place in the Methodist parsonage and was attended only by a few friends and relatives of the contracting parties.

The ceremony would have taken place in Carson City were it not for the serious illness of the mother of the groom, who was stricken with pneumonia at her home in Battle Mountain.

Miss Latta is one of Carson City's fair daughters. She has been teaching school at Clear Creek in Humboldt county and the man of her choice is a prosperous rancher in the same vicinity. They will make their home in Humboldt county.

## Didn't Fire the Blast.

There was considerable excitement at the railroad depot yesterday afternoon caused by the attempt of Carl Young and a man whom he had hired to sink a shaft between the railroad tracks. Young claims to own a fraction of ground on which the Witterberg Warehouse is located and including the railroad tracks. The man had dug a hole about three feet deep, when Young entered the railroad office and told the employees that he was about to fire a blast and if they remained there they would take their lives in their hands. The announcement startled the clerks but they were game and refused to budge. Chief of Police Lorentzen was telegraphed for and soon appeared on the scene. He placed Young under arrest and escorted him to the city jail. He was released later on no charge being filed against him.—Bonanza.

## Held for Murder.

John Cassidy, who was stabbed and fatally wounded by Peter Schafter on Main street on Friday forenoon of last week died of blood poisoning in Eureka at 10:15 o'clock Wednesday night December 20, 1905.

The wounded man rallied from the shock of the cutting after his injury was dressed, but began singing 48 hours after the stabbing was done. He had several sinking spells until Tuesday when peritonitis developed and terminated fatally 36 hours later.

When his case was pronounced hopeless he made a dying statement to District Attorney Lew Rogers, which has not been made public and Rev. Father Manion administered to him the last rites of the Catholic Church.

A complaint charging Schafter with the death of Cassidy was filed after the inquest. Schafter, who has been in jail since the cutting was taken into the District Court and after Judge Cromer informed the prisoner of his right to employ counsel he fixed his preliminary examination for Saturday, Dec. 23, at 10 a. m.—Eureka Sentinel.

## New Odd Fellow Lodge For Reno.

A new Lodge of Odd Fellows will be organized in Reno next month and two days will probably be devoted to the institution. The first degrees will be conferred by Reno Lodge, the second degree by Carson Lodge the third by Virginia Lodge and the initiatory degree by the Grand Lodge of Nevada.

## Soft Weather.

Christmas evening the weather limbered up and a warm wind cleaned the snow out of the valley at a lively rate. Yesterday there were slight showers of rain and some of the streets are almost dry as the wind took up the moisture. The few ice houses that failed to get their filling are apt to be pretty empty before another freeze. Last night was somewhat cooler but no real winter weather.

## A Play that Pleased.

In spite of the fact that there was a small audience at the opera house Christmas night, the company producing "Dora Thorne" was well received. The play certainly pleased. It was well staged, well rendered, and decidedly interesting. The play is among the best that has been here this winter and it is regrettable that there were not more people present to enjoy it. The company made good.

## The Next Dance.

The Warren Engine boys give their next dance on Saturday night. It is always the dance of the season, and the fire lads know the art of making everyone have a good time. Get in with the boys and enjoy the last social gathering of the departing year.

## OPHIR ANNUAL REPORT.

Superintendent McKinty's Statement for the Past Year.

The San Francisco Journal of Commerce last Saturday contains a detailed report of Superintendent McKinty's operations in the Ophir mine for the past year ending November 30 as following:

The quantity of ore extracted from the various points in the mine amounted to 2324 234-2000 tons of No. 1 ore and 5898 1200-2000 tons of No. 2 ore.

At the Kinkead Mill 6131 tons of ore were treated, yielding \$34.04 per ton, including 807 tons being worked at time of last annual report.

There were sold to Selby Smelting and Lead Company 1972 1444-2000 tons of ore yielding \$178.26 per ton. In all the above silver silver was calculated at \$1.292.

There were sold 5901 529-2000 tons of tailings for which we received \$3428.25.

We have in the ore bins 351 780-2000 tons of No. 1 ore assaying on a basis of gold value \$88.34 per ton, and 574 1200-2000 tons of No. 2 ore, assaying on a basis of gold value \$28.00.

The Secretary's report shows total receipts of \$449,740.91 and disbursements to the same amount less a cash balance on hand of \$43,740.88. Included in the disbursements is \$20,666.08 for the Miami and Ohio claims.

## Found Not Guilty.

In the case of the State vs. Mrs. Florence Wise on a charge of cattle stealing, the jury rendered a verdict of not guilty.

## Nearly Ready to Move.

The Western Ore Purchasing Company has practically cleaned up its work at Mound House. As soon as the few remaining cars there are shipped the plant will be closed down and the machinery and building moved to Miller Meadows.

## The Next Attraction.

Gus Sun's Minstrels will appear in the Carson City opera house on the evening of January 5th.

Miss Ella Small, teacher of the Peavine school north of Reno is spending the holidays with her parents in this city.

Miss Grace Collins, who teaches school in the eastern part of the State is spending the holidays at her home in this city.

P. H. and Mrs. Gordon of Hobart Mills are the guests of Mr. and Mrs. W. H. Chedie.

Sam Follett of Truckee arrived Sunday morning to spend the holidays with his mother.

Mrs. Henry Kaiser and son William departed for Goldfield yesterday where they will spend several weeks with Mr. Keyser.

The electric wires have been on the buck the past few days owing to the high winds in the mountains.

## BUILDING THE ROAD.

The Iron Bands to Tie Las Vegas to Bullfrog Arrive Daily.

Looks businesslike. The Las Vegas and Tonopah Railroad Company received a shipment of seventeen cars of rails this week for the Bullfrog branch.

The railroad yard is filled with ties and features that mean great work from now on to reach the inland mineral empire of Nevada.

The contractors, Mendanball & Co., are shipping their teams, grading utensils and operating factors and inside of a week will be at it in a manner that will have the roadbed prepared to Indian Creek for the rails to connect that point by March 1, if not before.

Manager Grace confirms the evidence of go-ahead with construction by the statement, "The road will be constructed and pushed to completion, consistent with the work required with every possible dispatch.—Las Vegas Times.

## Cow Imprisoned in Mine Tunnel.

During the cold wave last week a cow was missed from the Heinrichs milk ranch on Geiger Grade and the hills in the vicinity were searched for a day or two in a vain effort to find her until tracks in the snow leading to the rattlesnake tunnel below the wagon road disclosed that she had sought shelter there and penetrated to the end of it, which is over 300 feet in length, where she was patiently waiting to be rescued, the tunnel being too narrow for her to turn around and get out. Mr. Heinrichs and his sons, Paul and Reuf with Jack Welch, owner of the tunnel, hitched a rope to the cow's tail and while Reuf seized her by the horns and the other three men grasped the ropes and after several hours work succeeded in backing her out of her underground prison.

## A Serious Accident Averted.

Last evening foreman Matt Twoomey of the V. and T. railroad had occasion to go to the depot and he went as usual by the way of the E. street tunnel. When near the center he discovered that a cave had occurred and he immediately retraced his steps to the mouth of the tunnel and flagged the local train which was to arrive in a few minutes. It is due to Mr. Twoomey that a serious accident was averted as the engine would have crashed into the cave and there is no telling what would have happened. On examination of the tunnel it was found that a large set of timbers had given away, causing the cave. The damage will be repaired today.—Chronicle.

## Ore Shipments.

The ore via the Tonopah railroad for the week ending yesterday shipped was as follows: Tonopah Mining Company, 620 tons; Montana, 130 tons; Tonopah Extension, 350 tons; Belmont, 140 tons; Midway, 82 tons; North Star, 30 tons; D. B. Gillies, 53 tons; J. S. Smith, 10 tons.—Miner.

Drop in at Regans and the boys will find a warm spot for you; nothing like it in cold weather.

## A RICH FIELD.

Walker Lake Reservation Offers Chances to the Prospector.

There is every present likelihood that within a few months—perhaps within a few weeks—another mining field will be opened in Nevada that will cause a big rush. The Walker Lake Indian Reservation is the place. It lies mostly in the northern end of Esmeralda county (the county that contains Goldfield), but extends a few miles north into Lyon county.

It is not a large reservation—its length fifty miles and its average width less than fifteen—but it embraces the whole of Walker Lake and two ranges of mountains, both known to be well mineralized, the Lake and the Grabb's valley range on the east.

The railroad from Reno to Tonopah runs down the east shore of the lake which is thirty miles long and from three to fifteen miles in width. Its waters are two alkaline for domestic use, but it supports fish life, and, of course, is very good milling water.

Piped into the desert camps, which can be done, it will solve the milling problem for Tonopah and Goldfield and make these great camps independent of the railroads and smelters. It would certainly go by gravity from Tonopah to Bullfrog, but, of course, the expense would be heavy—probably \$1,000,000.

But such a sum will be spent rather than leave the vast wealth of low-grade free-milling ores, amounting to scores of millions, lying unmined in the Bullfrog district. The greater part of the wealth of all of these new desert camps, as in all camps, no matter how rich some of the products may be, lies in the large bodies of medium-grade milling ores, and the great need of Tonopah, Goldfield and Bullfrog (not to mention half a dozen minor camps in Southwestern Nevada) is cheap and ample water for milling and concentrating their ores.

Both mountain ranges on the reservation are known to be well mineralized and for years rich mines have been known to exist in them. They have been worked in a clandestine way, too, in spite of the law; but as soon as the Indians discover the miners trespassing they report to their agent and he goes with the Indian police and drives them off and confiscates whatever tools or machinery they have.

## A Cutting Scrape.

Christmas eve Frank Trudell was brought to this city from Glenbrook where he had received a number of nasty cuts during a row at the lake-side town. From what could be learned the row was the result of too much liquor and Frank got the worst of the mixup. Dr. von Radeskey was summoned and he patched the wounded man up, and it required some twenty stitches to fix him for the season. No arrests were made and no complaint has been sworn to.

## A Quiet Day.

Christmas passed off very quietly in this city. The Christmas turkey and the dressings seemed to lay pretty quiet and the boys managed to celebrate in a quiet manner. The storekeepers report extra good trade and considerable shopping is still in vogue in order that the people can get even on those who made unexpected presents.

## A Bad Shakeup.

On Christmas eve, while Herb Smith was walking in from his ranch, he slipped into a culvert near the big box factory. Herb received a dozen bad cuts and lacerations, while the shake-up will put him in bed for several days at least. The cattle guard was filled with rough ice and this cut him up in a very painful manner. He was rendered unconscious by the fall and upon failing to return home parties went out to hunt for him. He made his way home in the meantime and a doctor has patched him up. It will be some time before he can resume his duties in the V. and T. shops.

Ward is closing out his \$20,000 stock at a sacrifice. This is an opportunity for Christmas shoppers.

The White Pine News says that the railroad to Cherry Creek will be completed on time as plenty of material has been received by the contractors.

Right of Way Agent Homer of the Western Pacific told a Silver State reporter that he had settled the right of way from Golconda to Deep Hole, near the California State line and the entire cost to his company was less than \$400.

We are selling three pounds of mixed nuts for 50 cents, all fresh and the best. Davey & Maish.
